WHAT IS THIS PRODUCT?

Fund type: FDI BRD Oportunități is an undertaking for collective investment in transferable securities (UCITS).

The period: This product does not have a predetermined duration, but the recommended minimum duration is five years. However, fund units may be redeemed on demand at any time, and are continuously redeemable.

Objectives: Active resource valorisation through investment on financial equity and bond markets, in money market instruments, as well as bank deposits. The Fund objective is to achieve a long-term increase in value by seizing investment opportunities on financial equity, bond and money markets. Product performance is closely related to developments in the Romanian and global equity and government security markets. For a holding period shorter than the recommended period, the product may have higher volatility. The Fund does not expressly track any index.

Instruments: The Fund's strategic (long-term) asset class allocation is 60% equities or equity securities issued by funds that invest predominantly in equities and 40% other assets such as bank deposits and government securities. In the short term, the Fund may deviate significantly from its strategic allocation in order to take advantage of opportunities offered in certain markets. Derivatives may be used to hedge risk, but also to achieve the investment objectives of the Fund. The Fund invests in instruments with the possibility of growth and income. The Fund does not distribute any dividends, and gains from investment made are reinvested in the Fund and included in the fund unit value which is published each working day. The Fund may also invest in other categories of instruments such as units issued by other UCITS. These instruments should not affect an investor's ability to redeem units on demand.

Markets: The Fund has a flexible investment allocation, and may invest both in Romania and on global markets, as well as Switzerland, without undertaking a predefined allocation in relation to a certain market.

Investor type: Taking into account Fund objectives and the Investment Policy, it is addressed to investors wishing to invest on financial markets in the long term, with the intention of obtaining a higher return, with an understanding of the risks resulting from such an allocation and of the fact that income generated by the investment is usually proportional to the risk. As a result, the profile of the investor to whom the Fund is addressed is one who has defined a long-term investment horizon and takes on the risks set out in the Prospectus.

Other information: The Fund Depositary is BRD - Groupe Societe Generale. Fund documents and reports, as well as the latest values of fund units may be found at: www.brdam.ro

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Low risk

Generally low returns

High risk

Generally high returns

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The risk indicator assumes you keep the product for the minimum recommended period of 5 years. The actual risk can be significantly higher if you keep the product for a shorter period than the minimum recommended and you may receive a smaller amount than the one invested. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a low-medium risk class. This rates the potential losses from future performance at a low-medium level, and poor market conditions could impact the Fund's capacity to pay you.

The Fund is denominated in RON but also has classes in other currencies and their return may vary depending on the fluctuations of these currencies against the national currency.

The risks relevant for the Fund are not included in the synthetic risk indicator (SRI):

The liquidity risk - is related to the ability to meet payment obligations when they are due without incurring unacceptable costs. The Fund's investment will be made on different markets whose liquidity may vary. The conditions of reduced or null liquidity at a given time on one or more of these markets may have a negative impact on the fund unit value, especially in case of significant changes in its asset.

The operational risk - is the risk of a loss determined either by the use of inadequate processes, systems or human resources or that did not fulfil their function properly, or by external events and actions.

The likely estimated impact of the Fund's sustainability risks is medium.

This product does not include any protection against future market performance and therefore you may lose all or part of your investment. The tax legislation of the individual investor's home Member State may have an impact on the actual remuneration.

Recommended holding period: 5 years Investment example: EUR 10 000/ USD 10 000/ RON 50 000		If you redeem after 1 year			If you redeem after 5 years (recommended period)		
Scenarios		Class A	Class E	Class USD	Class A	Class E	Class USD
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.						
Stress	What amount can you receive after deducting costs	RON 20,510	EUR 3,960	USD 4,090	RON 25,790	EUR 5,050	USD 5,260
	Average return every year	-59.0%	-60.4%	-59.1%	-12.4%	-12.8%	-12.1%
Unfavourable	What amount can you receive after deducting costs	RON 43,900	EUR 8,760	USD 8,930	RON 56,400	EUR 10,090	USD 10,200
	Average return every year	-12.2%	-12.4%	-10.7%	2.4%	0.2%	0.4%
Moderate	What amount can you receive after deducting costs	RON 53,380	EUR 10,550	USD 10,650	RON 71,820	EUR 13,370	USD 14,190
	Average return every year	6.76%	5.52%	6.48%	7.51%	5.98%	7.24%
Favourable	What amount can you receive after deducting costs	RON 69,180	EUR 13,600	USD 13,440	RON 85,460	EUR 15,700	USD 17,150
	Average return every year	38.4%	36.0%	34.4%	11.3%	9.4%	11.4%

The figures shown include all costs of the product itself; but may not include all costs you pay to your advisor or distributor. The figures do not take into account your tax situation, which can also affect the amount you receive. What will you get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. The unfavourable scenario occurred between 01.04.2015-31.03.2020 (class RON, EUR, USD) for the recommended investment period. The moderate scenario took place between 01.08.2019-31.07.2024 (class RON), 01.01.2016-31.12.2020 (class EUR), 01.11.2018-31.10.2023 (class USD) for the recommended investment period. The favourable scenario took place between 01.11.2016-29.10.2021 (class RON), 01.04.2020-31.03.2025 (class EUR, USD) for the recommended investment period. Markets could perform very differently in the future. The crisis scenario shows what you can achieve in extreme market circumstances.

WHAT HAPPENS IF BRD ASSET MANAGEMENT S.A.I IS UNABLE TO PAY OUT?

This product is not covered by any guarantee scheme. There is a potential risk of not obtaining the expected return and even of losing the initial investment. This risk arises from the financial instruments held in the Fund's portfolio, as a result of adverse changes in the creditworthiness of the counterparty or the issuer of a financial instrument, as they may end up not fulfilling their obligations on time or in their entirety.

According to the specific legislation, the assets of the funds are separated from the assets of the Manager, BRD Asset Management S.A.I., and are not affected in the event of the Manager's potential inability to pay.

WHAT ARE THE COSTS?

The person selling you this product may charge you other costs. In this case, it will provide you with information on those costs and show you the impact of all costs on your investment over time.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you own the product and the product performance. The amounts shown here are illustrations based on an example of an invested amount and on different possible investment periods.

Costs over time

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario
- The amount of EUR 10 000/ USD 10 000/ RON 50 000 per year is invested

	If you redeem after 1 year			If you redeem after 5 years (recommended holding period)		
	Class A	Class E	Class USD	Class A	Class E	Class USD
Total costs	RON 1,476	EUR 295	USD 295	RON 8,805	EUR 1,679	USD 1,756
Annual cost impact*	3.0%			3.0% every year		

*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at maturity your average return per year is projected to be 10.04% (clasa RON) / 8.12% (clasa EUR) / 9.94% (clasa USD) before costs and 7.09% (clasa RON) / 5.17% (clasa EUR) / 6.98% (clasa USD) after costs.

Composition of costs

One-off costs upon entry or exit		If you redeem after 1 year	
		Class RON	Class EUR, Class USD
Entry costs	At the time of publication of the document we do not charge a subscription fee	0	0
Exit costs	At the time of publication of the document we do not charge a redemption fee	0	0
Ongoing costs (taken each year)			
Management fees and other administrative or operating costs	2.1% of the value of your investment per year. The costs include the management fee as per the prospectus and the recurring costs we charge you every year to manage your investment. This is an estimate based on actual costs over the last year.	RON 1,027	EUR / USD 205
Transaction costs	0.9% of the value of your investment per year. The impact of purchase and sale costs of the product's supporting investment. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	RON 449	EUR / USD 90
Incidental costs taken under specific conditions			
Performance fees	There are no performance fees for this product	0	0

Estimates for 2022 and the existing data for 2023 and 2024 were used to calculate transaction costs.

HOW LONG SHOULD I HOLD IT AND CAN I WITHDRAW THE MONEY EARLY?

The recommended minimum holding period: 5 years. The minimum recommended period is chosen based on the investment policy. This period has no contractual nature, the moment of subscription and redemption belong exclusively to you. The redemption in a short period of time can affect the expected return. No additional fees or redemption penalties are charged regardless of the investment period.

HOW CAN I SUBMIT A COMPLAINT?

Any complaint regarding the product, the creator of this product, BRD Asset Management S.A.I. or its behavior, or the person selling this product can be submitted by the following means:

- At any of the distributor's units, BRD - Groupe Societe Generale S.A;
- At the registered office of BRD Asset Management S.A.I. S.A. or by post, to the same address;
- By e-mail, brdamoffice@brd.ro, or via the website of the management company, <https://www.brdam.ro/>, the "Contact" section, choosing the "Petition" section.

After receiving your petition, you will receive confirmation of receipt. The final response will be provided within a maximum of 30 days from the registration of the petition, and you may be notified of an extension of up to 15 days. You can find more information on our website, the "Documents" section: https://www.brdam.ro/assets/pdf/Anexa_nr_5_informare_investitori.pdf
